American Violinist Asha Mevlana Incorporates AZEK Decking into Her New Tiny House

SKOKIE, Ill., March 6, 2017 /PRNewswire/ -- AZEK Building Products has once again been featured on FYI's hit series "Tiny House Nation." In an episode that aired on March 4th, 2017, titled "400 Sq. Ft. Amplified Tiny House," American violinist and travel presenter Asha Mevlana incorporated AZEK Deck's Arbor Collection in Brazilian Walnut on her new Fayetteville, Arkansas home. The decking also used the ConcealOC fastening system. The design will not only help extend Asha's outdoor living space, it also showcases the beauty of AZEK decking and ensures a smooth and safe surface for years to come.

AZEK® is a leading provider of premium building products. And now, the brand is proving its decking is ideal for all outdoor home projects, no matter the size.

"Our decking perfectly complements the tiny house trend because our premium product's benefits nicely align with the values of tiny house owners," said Julia Fitzgerald, AZEK Building Products' CMO. "Instead of spending time staining and sealing a wooden deck, tiny house owners can spend time simply enjoying life, which is why they have a tiny house in the first place."

AZEK decking is designed to last beautifully while standing up to harsh conditions. The high-performance material is proven to resist mold, mildew and moisture damage in addition to resisting stains, scratches and fading. With no need for annual sealing or staining and a quick and easy installation process, the brand's products are ideal for the construction-and maintenance-of tiny houses in all climates.

"After being featured on 'Tiny House Nation' last season and seeing our products used in 84 Lumber's tiny house collection, we understand that this trend is only going to gain popularity over the next few years," said Fitzgerald. "Because of our commitment to innovation and investment in material science, we know that AZEK's premium products will continue to be used in the building of these homes. Our products are proven to stand the test of time, no matter the home they complement."

"Tiny House Nation" on FYI follows renovation experts and hosts John Weisbarth and Zack Giffin as they travel across America to show off ingenious small spaces and the inventive people who live in them. The show airs on Saturday nights at 9 p.m. eastern.

About AZEK® Building Products:

AZEK Building Products is a leader in the development of premium, low maintenance exterior building products. Available to a worldwide audience, our product lines span AZEK Trim, Decking, Railing, Moulding, Porch and Pavers as well as capped wood composite Decking and Railing under the TimberTech brand. Both brands, synonymous with quality and innovation and made in America, lead their market areas by continually reinventing product lines and redefining entire product categories.
