

THE AMPLIFIED "TWO-STRUCTURE" TINY HOUSE

March 06, 2017 1 Comment

[amplified tiny house](#) [fayetteville arkansas](#) [two structure](#)

The sleek "Amplified Tiny House" is a modern tiny home in Fayetteville, Arkansas that is split into 2 separate buildings--a main house and a trailer, both connected by an inviting L-shaped deck.

The main house is a permanent structure and sits at 400 sq ft, featuring a kitchen, living room, loft bedroom, bathroom and a garage-style door that opens up to the deck. The trailer sits at 120 sq ft for a combined living space of 520 sq ft, and is used as a guest room and sound studio (it is soundproofed using recycled denim!).

The trailer isn't just inspired by an amplifier, it actually is one! Just plug in your instrument and the sound comes from the four marine speakers located on the top of the amp, projecting its sound onto the deck that was designed to resemble a concert stage!

This tiny house was featured on the TV show "Tiny House Nation" on March 4, 2017.
